Packed Lunch Policy

Packed Lunches (brought in from home)

As part of the Government's approach to reducing childhood obesity A Cross Government Strategy for England, Healthy Weight, Healthy Lives was launched in January 2008. This strategy outlines an expectation on all schools. To promote a culture of healthy eating the government now expects all schools - in consultation with parents, pupils and staff to adopt whole school food policies. In particular, schools will be expected to develop healthy packed lunch policies, so that those not yet taking up school lunches are also eating healthier.

Durham County Council and its partners have developed this guidance document to support schools in their journey towards this goal.

Introduction

To grow and stay healthy children need to eat a nutritionally well balanced diet. Schools are an influential setting and can contribute significantly to improving the health and well-being of pupils. Good nutrition in childhood can help to prevent a variety of health problems, both in the short term and later in life. There is increasing concern that many children are consuming too much fat, sugar and salt and too little fibre, fruit and vegetables.

Packed lunches can contribute to almost a third of a child's weekly food intake and therefore need to be balanced and nutritious.

Schools should ensure that packed lunches (brought in from home) reflect the new standards for school meals introduced in September 2006.

Rationale:

- Schools are required to positively promote the health and well-being of its pupils. Work around healthy eating is a high priority.
- The content of lunchboxes needs to reflect the requirement of schools to meet minimum food and nutrition standards for school meals.
- The contents of lunchboxes in some schools can be extremely unhealthy, recent audits of lunchboxes have shown that in the main they contain foods with high levels of fat, sugar and salt, and very few fruit and vegetables.

- Schools need to encourage healthy eating habits from an early age to help improve the overall nutrition of pupils
- The short term effects of unhealthy packed lunches and food intake can include poor growth, tooth decay, obesity, anaemia, constipation, poor concentration and behavioural problems which may have an impact on a child's learning.
- The longer term effects of a poor diet in childhood can be an increased risk of stroke, cancer, heart disease and diabetes in adulthood.

Objectives

- To improve the nutritional quality of packed lunches in schools and the eating habits of children at lunchtimes.
- To develop an awareness in pupils, parents, staff and the wider community that the school takes a pro-active approach to promoting healthy eating.
- To encourage healthy eating habits in childhood that can influence health and well-being in later life.
- To ensure that food brought into school (packed lunches) reflects and meets food standards for School Food (2006).

Implementation

This packed lunch policy fits within a wider context of promoting a whole school approach to food and healthy eating.

- Children's packed lunches should be based on the 'Eatwell Guide' model which shows items from the 5 main food groups; (Food Standards Agency).

Bread, Rice, Potatoes, Pasta

These starchy foods are a healthy source of energy. Packed lunches should include 2 or more portions.

Fruit and Vegetables

These foods provide vitamins, minerals and fibre. Lunches should include at least 1 portion of fruit and 1 portion of vegetables/salad, or more.

Milk and Dairy foods

These foods provide calcium for healthy bones and teeth. Include 1 portion at lunch.

Meat, Fish, Eggs, Beans

These foods provide protein for growth. Packed lunches should include 1 portion of these foods.

Foods and drinks high in fat and/or sugar

It is important not to fill up on too many foods that are high in fat and/or sugar at the expense of other more nutritious foods. Limiting high fat and sugar foods will help protect young people from becoming overweight as well as helping prevent tooth decay, heart disease, stroke, and diabetes. This is why sweets, chocolate, crisps, cereal bars, fruit bars, toffee/salted popcorn, squash and fizzy drinks are no longer available in schools. Please support your school by not including these items in a packed lunch (see below)

Drinks - any drinks provided in lunch boxes should only include either plain water, milk (semi-skimmed), unsweetened fresh fruit juice, diluted fresh fruit juice, fruit or dairy based smoothies.

(Additional information is available with ideas and examples of foods that can be included in packed lunches). School Food Trust www.schoolfoodtrust.org.uk

To ensure consistency and keep packed lunches in line with food standards for school meals. **Packed lunches should not include the following:**

- Sugary fizzy drinks in bottles or cans
- Chocolate coated products
- Sweets or confectionary
- Salted nuts
- Chewing gum
- Salted, sugared or toffee coated popcorn

Special Diet

If your child requires a special diet due to medical needs and the packed lunch policy cannot be adhered to please get in touch with the school so a diet plan can be completed.

Waste and Disposal

The school will, within reason, send any uneaten packed lunch food items back home. The rationale for this is that parents can also monitor what their child has consumed during the day and then raise any concerns over their child's food intake with the school.

Due to Covid 19- all food waste will be disposed of in school as per DCC risk assessment. Parents of children leaving large amounts of food will receive a text to make them aware of this.

Packed Lunch Containers

It is the responsibility of the parents / carers to provide an appropriate packed lunch container where food items can be stored securely and appropriately until the lunchtime period. Parents are advised to include an ice pack, especially during warmer months. Food products prepared and stored in ambient temperatures after a period of time can have increased levels of bacteria in them.

Due to Covid 19- Parents are asked to send packed lunches from home in disposable bags/packaging until we are informed it is safe to send in packed lunch bags.

Storage of Packed Lunches

The school will provide storage area/facilities for packed lunch bags, in the most convenient and appropriate place possible.

However the school cannot provide cooled storage areas and therefore cannot take legal responsibility for foods prepared at home and then brought into school.

Dining Facilities for Pupils Bringing Packed Lunch

The school will provide an appropriate area where pupils who choose to bring packed lunches can eat.

Monitoring and Evaluation

The school will carry out monitoring of packed lunch provision - where there may be concerns over a child's food/nutrition intake and/or content of packed lunches, this can be dealt with timely and sensitively. OfSTED are required to report on how the school promotes the personal development and wellbeing of all pupils - this may include food provision including packed lunches brought into school. The Local Authority will work with the school to review packed lunch provision and will provide advice and support to members of the school community.

Policy Review

This policy will be reviewed as part of the schools agreed policy review process. In addition any major legislative or governmental changes regarding school food may lead to this policy being amended.
