

East Stanley School

Remote Learning Parent Protocol

Where a class, group or a small number of pupils need to self-isolate, or there are local restrictions requiring pupils to remain at home, the DfE expects schools to have the capacity to offer immediate remote education.

Schools should ensure remote education, where needed, is high-quality and aligns as closely as possible with in-school provision.

At East Stanley School we will provide remote learning in the following ways:

Reception- Evidence Me

Y1 -Y6 - Google Classroom

It is the expectation that children log on daily and complete the tasks set.

We have not set a timetable for online learning, as we are aware that parents could be at work or working from home. All work is available online from 9.00am each day for children to access at a time to suit your family.

The register on Google Classroom should be completed daily by the children so that we can keep a record of who is accessing online learning.

Work to Complete

The DfE expects all primary schools to set a minimum of 3 hours of work per day whilst taking into consideration the pupils' age, stage of development or special educational needs.

At East Stanley School we will set daily reading, writing and maths lessons, alongside a daily foundation subject.

Please ensure your child takes regular screen breaks during this time.

Marking

Teachers will acknowledge work posted on each lesson and will feedback on common mistakes.

Behaviour and Conduct

All pupils are expected to conduct themselves online in the same way as they would do in class. Work produced should also be the same high standard as children would produce in lessons.

Google Meet

There will be an opportunity for all children from Y1 to Y6 to have online meetings with their teacher and other pupils from their class at least once per week. During these

sessions it is important that your child behaves appropriately online and follows the online safety rules. Please encourage your child to take part, as we have found these sessions to be very beneficial for both staff and children. Teachers have the opportunity to check in with the children and support them with their learning. Please note this is a session for children and staff. If you wish to speak to your child's teacher, then please drop them an email via Google Classroom.

Paper Based Learning

School will provide paper packs for families who struggle to access online learning. However, we would encourage online learning via Google Classroom wherever possible. The online learning is of a higher quality and has links to teaching videos to explain new concepts - something not possible with a worksheet.

For any family taking a paper pack there is an expectation for it to be completed and returned to school for marking.

IMPORTANT NOTE!

Any child not attempting to complete remote learning provided:

- **All children are expected to complete remote learning set.**

If work is not submitted within two days of being set, then school will contact parents to see if further help or support can be offered.

- **Chrome books/IPads**

Any family who has requested loan of a device must ensure that their child uses it. If the work set has not been accessed/submitted for a couple of days then we will contact you to return the device, so it can be allocated to the next family on the waiting list.

We understand that remote learning can be difficult at times and will require different types of input from parents depending on the age of your child. We very much appreciate the support you are giving the children during this difficult time, thus ensuring that as little learning is lost as possible.

Please email school if you have any specific concerns and we will do our best to help you.
